3. PUBLIC TRANSPORT IN WARSAW

Warsaw has an extensive bus and tram system crossing the city as well as a metro system running from north to south and a second line running east to west. Over 1,500 buses operate in and around the city, and most run from between 05:00 and 23:00. After that night buses run on most routes twice every hour. All night buses display the letter N, followed by a two digit number. "Fast buses" (marked with red digits) skip the smaller stops.

Tickets (all valid for use on metro, bus and tram) can be bought from a series of ticket machines with instructions in English dotted around the city, at all metro stations, and some bus and tram stops, with English translations printed on tickets. Tickets can also be purchased from machines on buses and trams, where you can pay by card, or using exact change only. Alternatively, kiosks also sell tickets.
